

Curriculum vitae Ronald Rietveld

Ronald Rietveld (1972, Gorinchem, NL) graduated with honors from the Academy of Architecture Amsterdam in 2003. His graduation plan “Delta Works 2.0” was one of the winners at Archiprix 2004. After winning the Prix de Rome Architecture 2006 he – together with his brother, philosopher and economist Erik Rietveld – founded RAAAF [Rietveld Architecture-Art-Affordances]: a design and research studio operating at the crossroads of architecture, science and art. Complex societal issues form the solicitations for the work. RAAAF’s work has been published and exhibited worldwide at leading art and architecture biennials such as those of São Paulo, Istanbul and Venice. Rietveld has won several prestigious prizes with the studio. The various juries emphasize the ability of the studio to cross and stretch disciplinary boundaries of architecture, science and art. Furthermore, Ronald Rietveld often gives lectures at symposiums and conferences. Together with Erik Rietveld he set up the Master’s Program “Studio Vacant NL” at the Sandberg Institute (Gerrit Rietveld Academy) in 2011. He was guest lecturer at several other Dutch academies such as Design Academy Eindhoven and the Academies of Architecture in Amsterdam and Rotterdam. Rietveld was member of several juries as well. On invitation by the Netherlands Architecture Institute (NAi) RAAAF was curator of the Dutch submission to the 12th Architecture Biennale of Venice in 2010.

Ronald Rietveld / RAAAF won the following **awards** (selected):

Architectural Review Award 2013

New Radicals 2013 | Vrij Nederland + Kennisland
